FARIS TEAM · GETTING STARTED

Start here

This folder has every prompt from the talk, the two kits, and the 30-day checklist. Each long file is here three ways.

Open 30-Day-Checklist first if you are starting the month. Open Prompts-by-Area when you need the words to paste.

Save the folder to your Drive, or tap Download.

Your 30 days also live in an online learning centre where you sign in with your name and tick off each day.

The month has eight parts, in order: Foundations, Clients and social, Connect your tools, Letters and offers, Deal card, Advanced, Your list, Review.

The first week covers your business, your writing style, brand guidelines, a task brain dump, dead leads, your decision log, and your inbox. End every day by adding decisions to your decision log.

Use Grok or Claude. Grok is the top pick for agents.

The .md files are for pasting into your AI. Open the .md, select the prompt, and paste it into the chat. The .pdf is for reading on your phone. The text is real, so you can select a prompt and copy it. Pinch to zoom if you want it larger. The .docx opens in Word. No extra app.

> **Do one day at a time.** If you don't finish a day's task, don't move on until it's done. If 30 days takes you 90, that's okay.
